German Battleship, Carrier Stunk

(Continued from Page 1)

The newspaper Dagen Nyheter said today that the former German battleship, the *Goeben*, and the 22,000-ton aircraft carrier *Goeben*, were taken to the port of Stettin recently while efforts were being made to tow them to Russian ports.

The Russians had salvaged them, the report said. Both vessels were towed to Stettin and damaged.

The basic hourly minimum to 96 cents, less a 10-cent overtime rate.

Also set for today is a province-wide picket scheme to force the union to attempt in British Columbia.

The union hopes to put it into operation against packing plants, meat shops, highways and railways.

Meatime work has resumed at two Quebec City slaughterhouses where union members staged a three-week sympathy strike.

The tie-up ended Monday night when the workers accepted a five-cent-an-hour wage increase and most of them severed their connection with the UPWA.

IT WAS ANNOUNCED that workers at a subsidiary plant of one of the Quebec City slaughterhouses would return to work today at Princeville, Que., 30 miles south of Quebec.

So far no severe meat shortage has developed but farmers have suffered through inability to market their livestock.

R. B. Graham, conciliator appointed by the Manitoba government in the dispute between independent packhouse operators and the provincial government that the walk-out will be "purely a sympathy strike."

GRAHAM SAID that the strike between the Communist police state and the western provinces is a "get tough policy," Mr. Fielding believes.

The only language the Communists understand is in the vernacular. That was the only way we could get along with them during our stay in Yugoslavia.

"I do not think he is making any attempt to establish even a truly Communist state in Yugoslavia.

He is actually running a police state, with the great majority of the people not knowing what it is about. His orders come directly from Moscow," the writer added.

Dugald Inquest Told CNR Engineer Alive When Two Trains Hit

WINNIPEG, Oct. 8.—(CP)—The possibility that Gay Lewis, 62, engineer of the Canadian National Railways' Mink special involved in a collision with an east-bound passenger train at Dugald, Man., Sept. 1, had died of a heart attack or stroke previous to the wreck was ruled out last night by a pathologist testifying at the inquest.

DR. JAMES Prendergast, who had examined Mr. Lewis' body, said he was satisfied the engineer was alive at the time of the collision.

The possibility of previous death first was brought up Sept. 25 at the concluding session of the Board of Transport Commissioners' hearing into the disaster, worst in Western Canada's railroading history. Thirty-one persons were killed and a score of others injured.

The inquest opened last night with testimony from 21 witnesses on the stand and an affidavit from another read by W. W. Tupper, counsel for the attorney-general's department.

The 1 1/2 hours of testimony Wednesday night, when additional witnesses are expected to be called.

Dr. Prendergast, 44, on the stand, said that Mr. Lewis had died of lacerations to the brain and cerebral hemorrhage.

THE POST MORTEM revealed some hardening of the arteries and a slightly enlarged heart, he added, but neither was pronounced, both corresponding to the engineer's age.

"Did you satisfy yourself that he did not die before the impact?" asked Mr. Tupper.

"He was not dead at impact. There was too much bleeding."

"Was there any alcohol in his stomach?"

"I did not smell any, nor in his brain, where it would also have shown."

"Could he have had a stroke?"

"Not from the type of bleeding revealed by the post mortem."

"THEN YOU ARE satisfied that he did not die of heart failure or stroke?"

"Yes."

The engineer, who resided in Transcona, and one other victim of the wreck, Mrs. Albert Simpson of St. Vital, Man., were the only fatalities rushed to the hospital. Mr. Lewis being dead on arrival and Mrs. Simpson dying shortly after admission.

Ross Cook, manager of the Cook Funeral Home in Transcona, 25 miles west of Dugald, said he received 26 other bodies at his undertaking establishment. Bodies of the remaining three persons among the 21 listed as killed were never located.

SGT. ROY STAFFORD of the RCMP, on duty at the scene of the wreck from the morning of Sept. 2 until Sept. 6, testified that everything possible was done to locate all the remains, ashes, debris and rubble being left carefully.

Asked if he was satisfied there were no bodies left when the search concluded, Sgt. Stafford said, "Everything possible was done that could be done."

Other witnesses were asked as to the identity of certain persons killed in the wreck and described the assistance to hospital of Mr. Lewis and Mrs. Simpson.

Approximately 22 more witnesses are expected to be called before the inquest concludes, likely Thursday night.

Says Two Courses Economic Policy

QUEBEC, Oct. 8.—(CP)—Using international cooperation along the lines of the Geneva Draft Charter of the International Trade Organization, Health Minister Martin last night warned that some tendencies were threatening "to divide the world into a series of hostile economic blocs."

The war years stimulated a tremendous recovery for Canadian trade," he said in an address prepared for delivery to the Canadian Chamber of Commerce's 18th annual convention. However, a heritage of restrictions and discriminatory trade policy, the development of depression years, is still with us."

"The general disorganization of local economies and the tremendous physical destruction, combined with an ever-increasing trend in state intervention and planning, threaten to divide the world into a series of hostile economic blocs."

"There are two courses of international economic policy open to the world today. Nations can unite to restore a multilateral world economy based on international law and order, in which national policies, based as they are, are made consistent with the general will of the community of nations."

"Or—and I hesitate to say this, for it cannot be policy but rather lack of policy—nations can continue to drift in the direction of economic blocs and uncoordinated bilateral barriers patterned along the line developed so intensively by Nazi Germany."

WASHINGTON, Oct. 8.—(AP)—The United States agriculture department is working on ways to keep the present grain emergency from creating a "meat famine" late next year and in 1962.

The plan is tentatively drawn calls upon farmers to produce large numbers of pigs next year on the gamble that bounteous crops will relieve the feed grain shortage.

Poles Found Alta. Work "Intolerable"

HALIFAX, Oct. 8.—(CP)—Conditions under which they worked on farms at Lethbridge, Alta., were so intolerable that they decided to return to England four months after Canada's immigration scheme brought them to the dominion.

Two Polish veterans testified in police court here yesterday.

BOLESŁAW Dzierżek and Kazimierz Tymochowicz were charged with boarding the liner Aquitania Sept. 20 without permission.

Magistrate R. J. Funn told the accused through an interpreter that he was "obliged to find them guilty" and sentenced them to six months each in city prison. He advised them to write to the justice department and ask that their sentences be remitted.

The two veterans of General Anders' rock-bitten Polish corps in Italy, said that in England the commission selecting veterans to go to Canada had painted "a fascinating picture of a utopia" when they described the Dominion. Their dream of a land of opportunity was blasted when they arrived in Alberta and were put to work in "a desert."

Tymochowicz, 42, said he was "too old for the work" he had to do and had little chance of establishing himself in this country. He had a family in England and wanted to return to them.

CZERNIEK said he had a fiancée in England whom he originally had intended to send for. Now he wanted to return to England, marry and settle down there.

"She may marry someone else while I'm gone," he said.

Tymochowicz, wounded twice and possessor of seven war decorations, said he had worked 12 to 13 hours a day on a German-owned farm near Lethbridge without proper facilities and under conditions that were "insupportable."

Both declared they did not believe they were committing an offence when they boarded the liner.

U.K. May Fix Date To Leave Holy Land

Actual date of withdrawal may be announced before the end of the present session of the United Nations Assembly, it was said.

Help Kidneys In 30 Minutes

It is a fact that kidneys are the most important organs in the body. They filter out the waste products of the body and keep the blood clean. If the kidneys are not working properly, the waste products will build up in the body and cause serious illness.

There are many ways to keep the kidneys healthy. One of the best ways is to drink plenty of water. Another way is to eat a healthy diet. And a third way is to exercise regularly.

There are also many medicines that can help the kidneys. But it is important to talk to a doctor before taking any medicine. Because some medicines can be harmful to the kidneys.
